Details: On the official Sega forums, fans have started a campaign for Sega characters to be added via DLC. Visit this Sega forums post to find out how you can vote for your three favorites. Then after December 1st the results will be presented by the forum admin to the Sega and Sumo development team. It's all unofficial, but if enough fans can come together, it could push Sega to add more characters to the game. The votes so far seem to favor: 1. Ryo Hazuki 2. Hatsune Miku 3. Segata Sanshiro 4. Vectorman 5. Bayonetta 6. Ristar 7. Toejam & Earl 8. Billy Hatcher 9. Axel Stone 10. Blaze Fielding 11. Phantom R 12. Selvaria Bles 13. Alis Landale 14. Welkin Gunther 15. Sakura Shinguuji 16. Ash 17. Opa-Opa 18. Arle Nadja 19. Kazuma Kiryu 20. Sketch Turner 21. The Chu Chus 22. Space Harrier 23. Bonanza Bros 24. Amitie 25. Spiral Knight 26. Rag Rappy 27. Jacky Bryant 28. Ecco I doubt they'll add Ristar, though. Because the development team already said he's the Flagman instead of playable, since they have "issues with what the character looks like from behind." Weird, but true! Who could be the next DLC character?
